COURSE: This is your Brain on Steno (1.5 hours)

This seminar will explain how reporters’ minds really are different, and we’ll explore how regulating your emotions and managing your thoughts are the keys to conquering fears, finding your assertive professional voice, and standing in your own power and confidence. In the past nine months, I’ve worked intensively with students who had all but given up on the CA CSR. Some had taken the test so many times they’d lost count. One student had taken it 9 times and another had seen fails 11 times. Those two along with 16 others have now passed and are working reporters.
